

Task 1// Portfolio

# WEB DEVELOPMENT

Nicole Plant

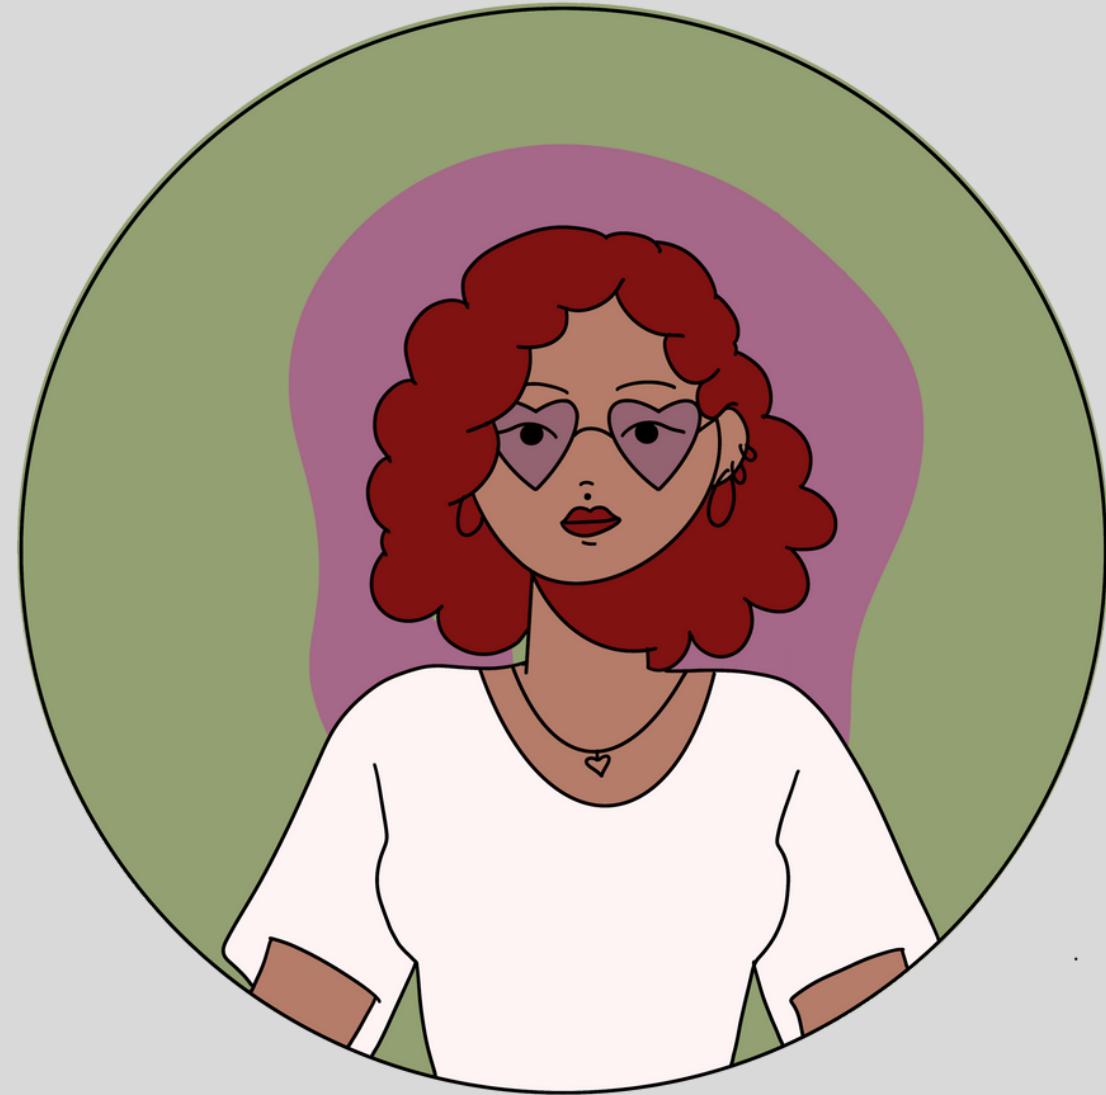

My website is going to be about my personal Portfolio, the website is going to have the website itself very dark and that will make the effect contrast between the artwork and the website. I am looking for a minimal website that has very few steps to complete what you need to do. I believe that the more the website the audience will enjoy their experience better.

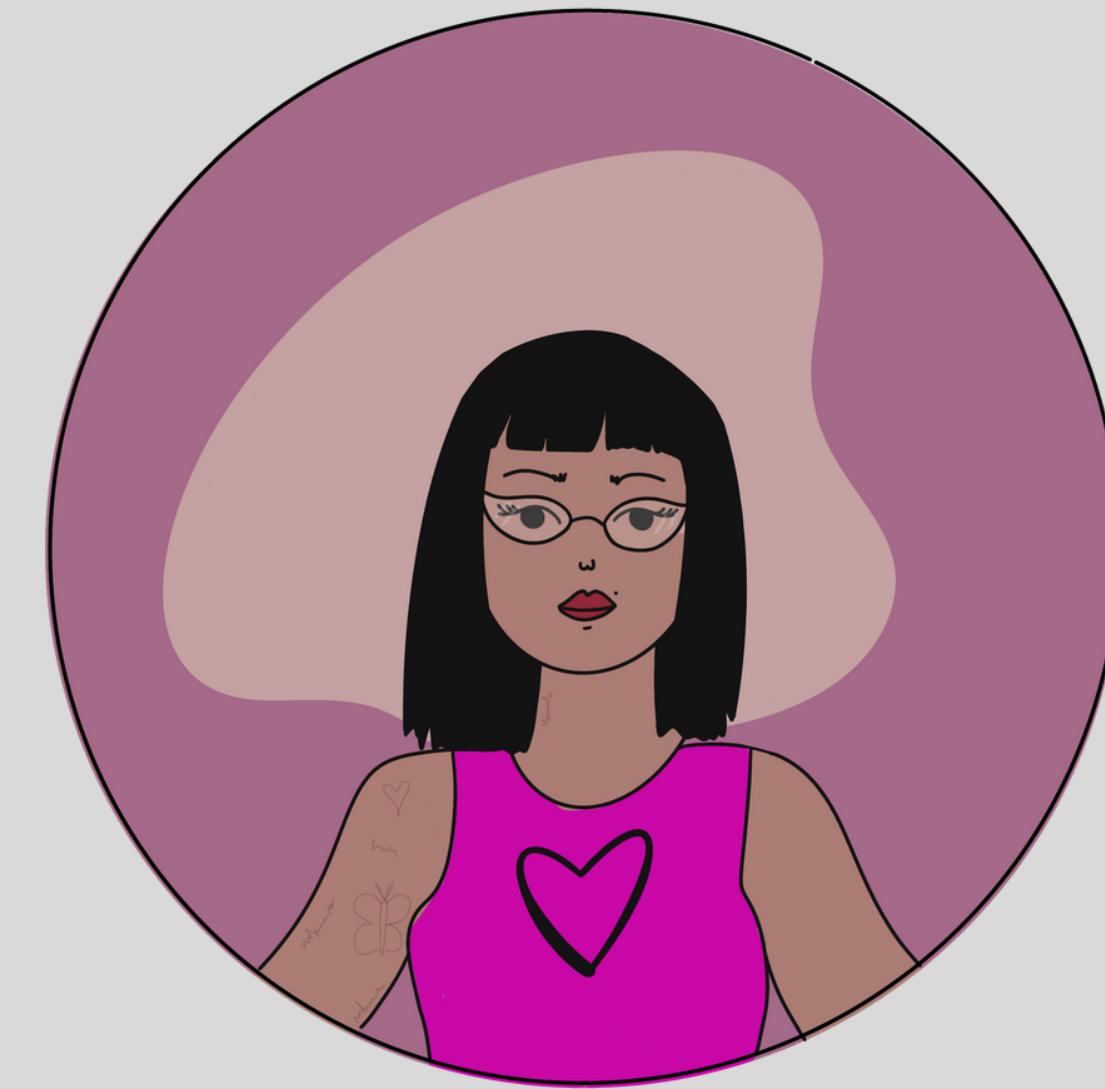

The website is going to help me promote my work and also help people choose the right artwork for their home/space.

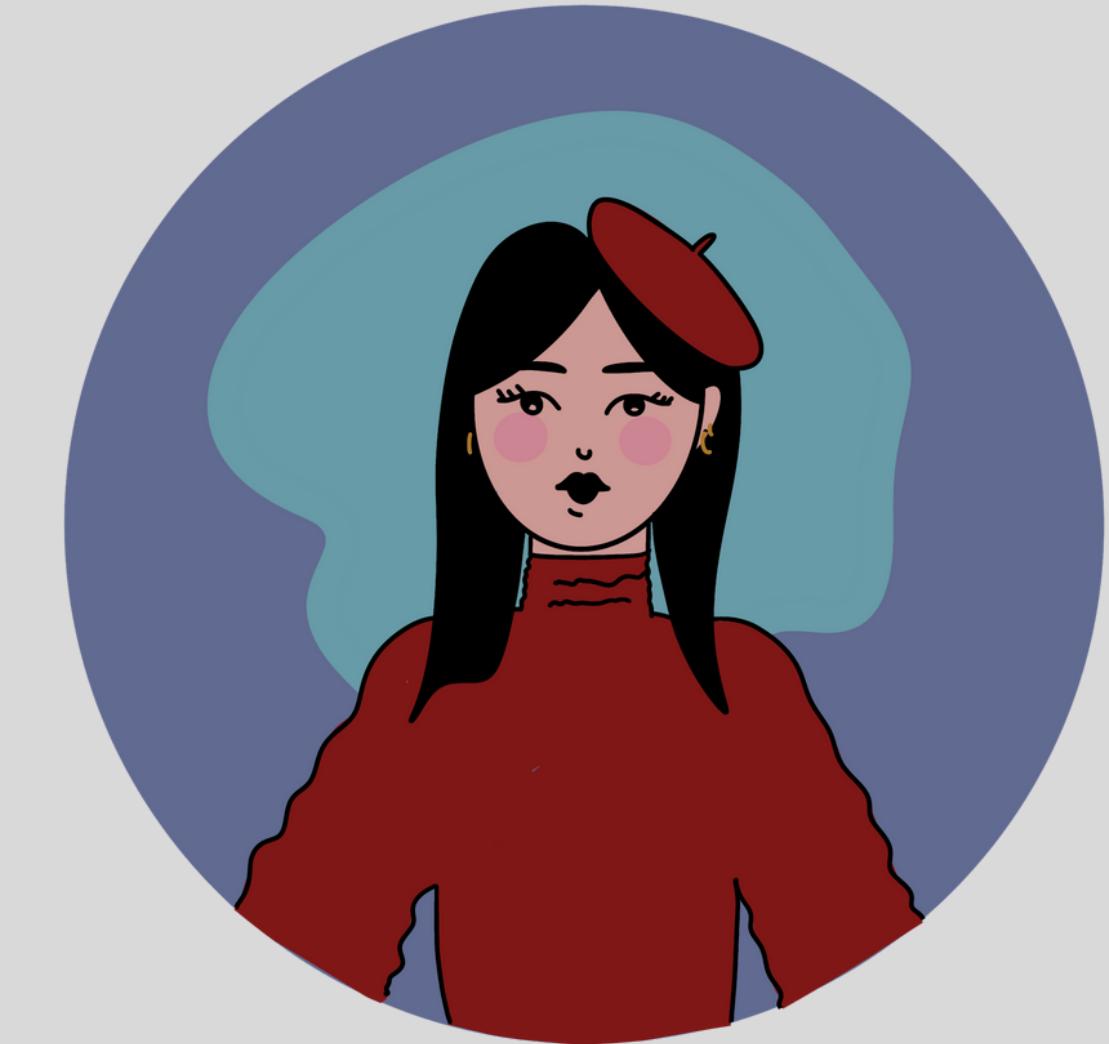

# USER PERSONAS

Interior Designer (needs artworks for decor)

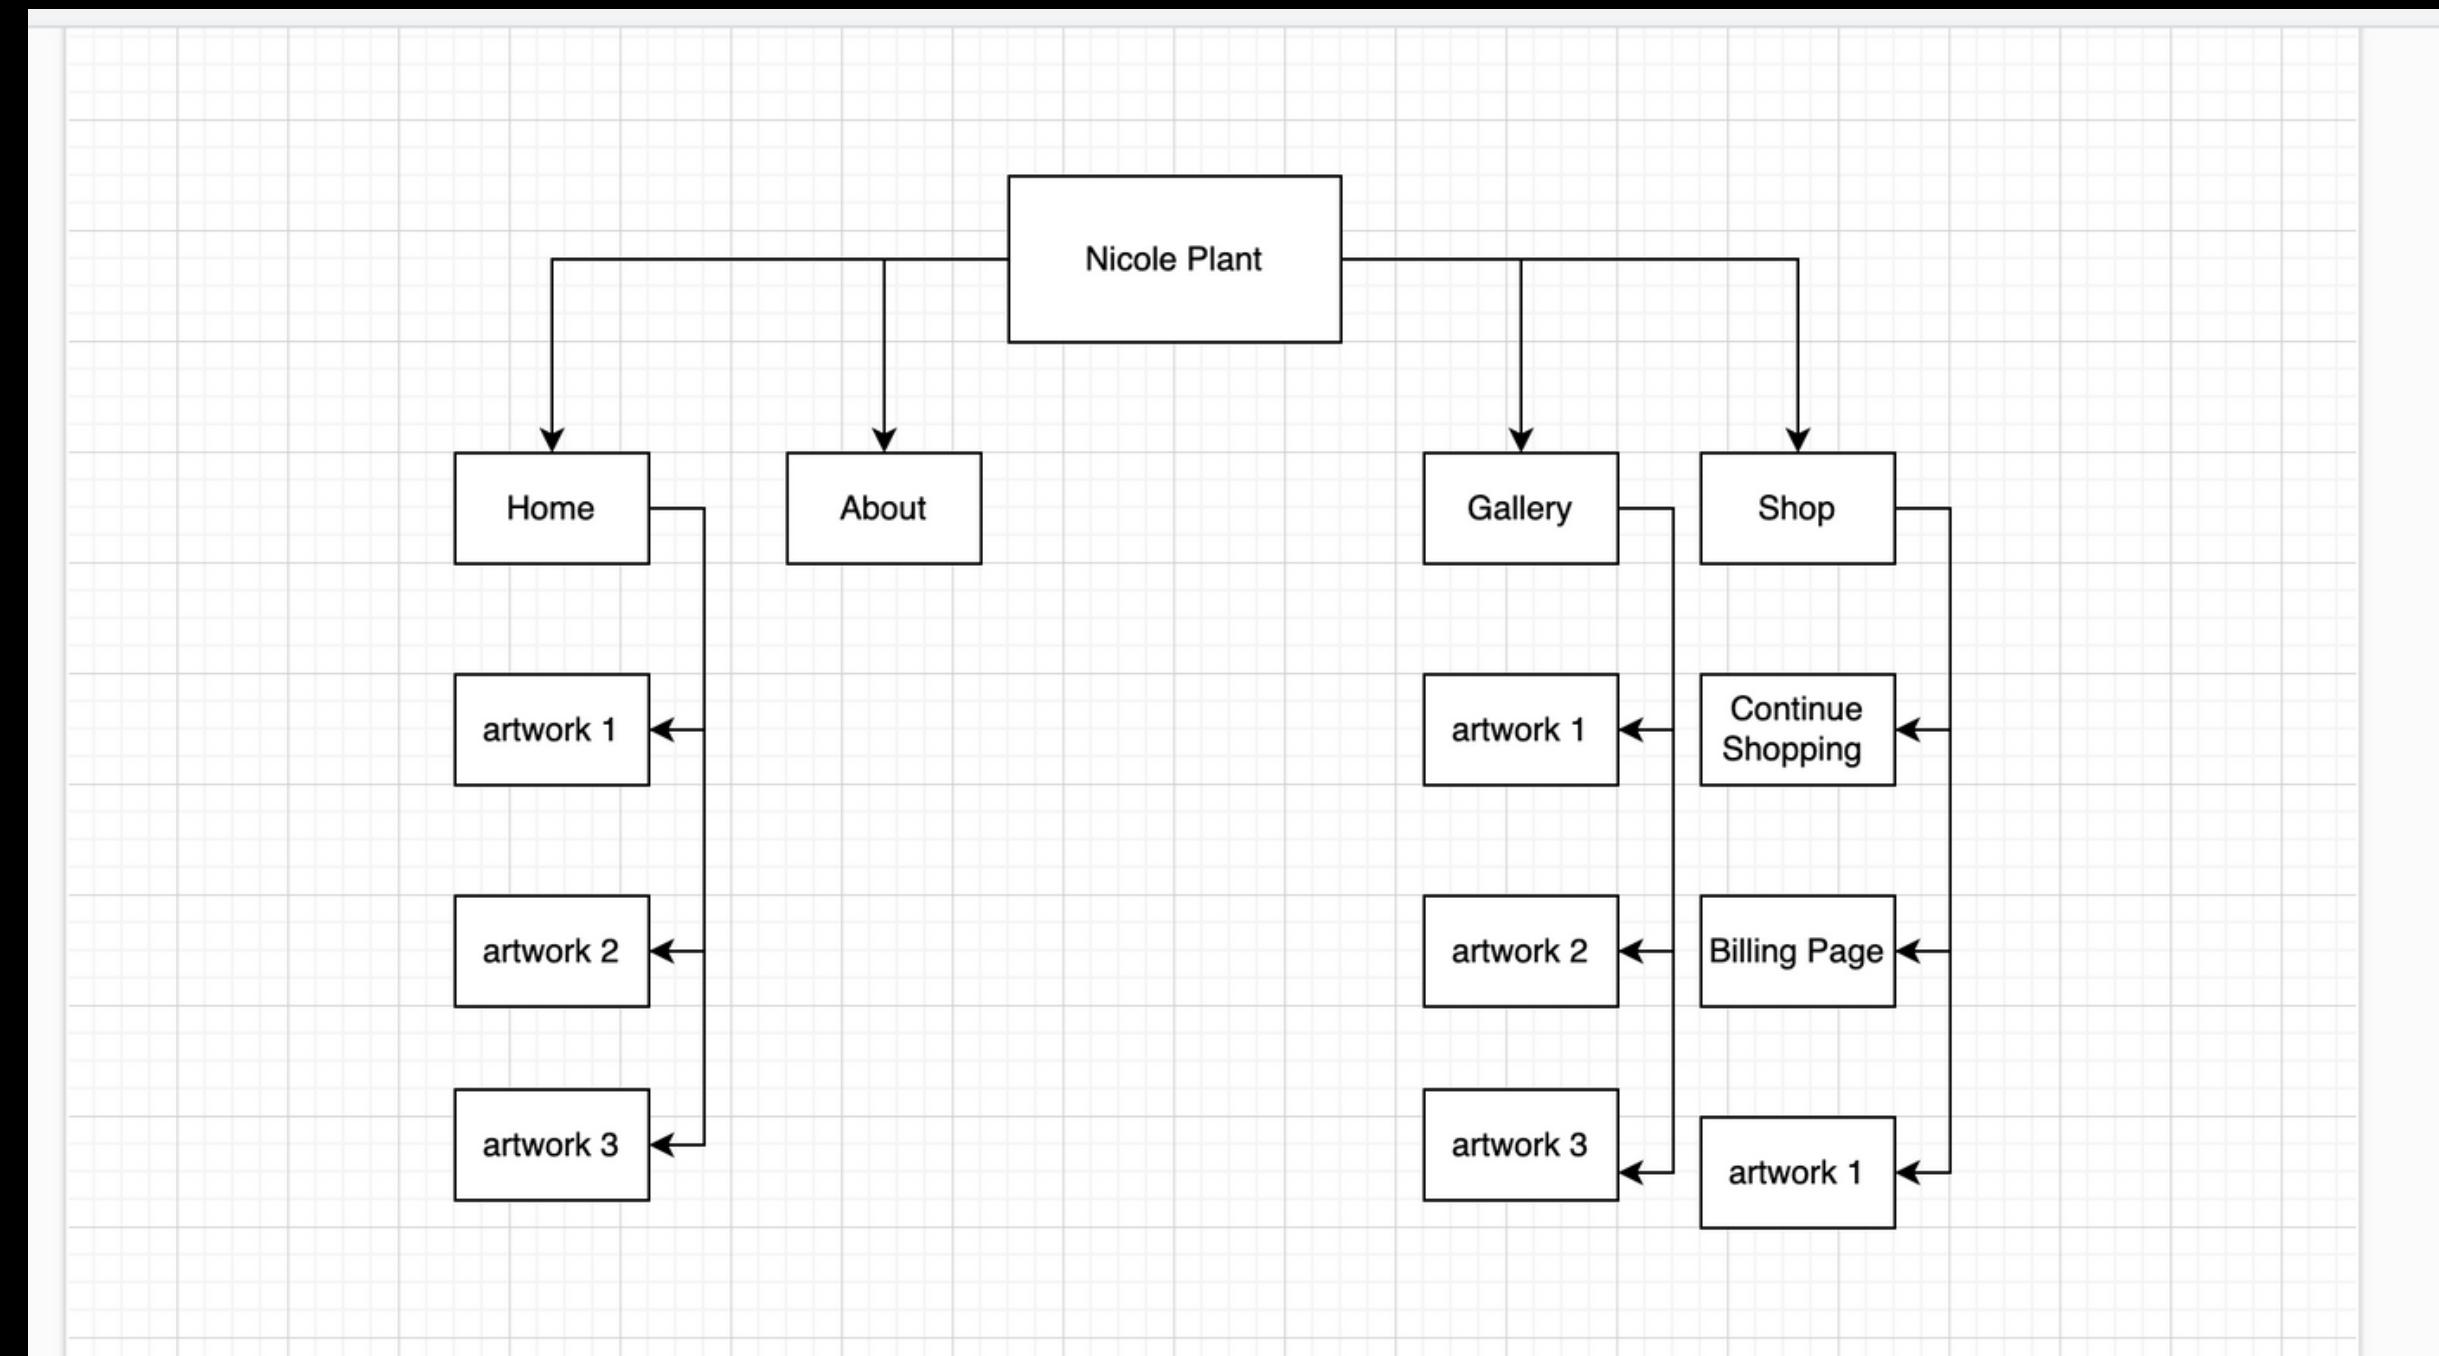

The tattoo girl (Artist)
